

# AWARENESS OF DEMENTIA

## WHO IS IT FOR?

This workshop provides an Introduction to Dementia and is suitable for people working with people with dementia in the community or in a care setting.

## OBJECTIVES

At the end of this workshop delegates can expect to be able to:

- Engage with people with dementia in a variety of ways.
- Have greater understanding of different types and causes of dementia.
- Understand the impact of dementia on the individual.
- Appreciate the impact of dementia on the family.
- Have considered the assessment process.

## CONTENT

By attending this workshop we aim for delegates to understand the following topics:

- Understand what is happening to a person with dementia and how they may feel about it.
- Understand how physical damage can cause everyday difficulties.
- Understand how dementia can impact on communication.

## METHOD

This is a very practical workshop and contains theory in relation to the subjects covered.

## DURATION

One day.
